- Supportive roles on UI Designing and Developing.
- Github [View Code]

Dashboard Design – Interview
- Designed a dashboard round and got selected for the interview round company (Sursa Tech)
- Figma [View Figma]

Projects That Fueled My Motivation
- **5-mini Projects:** Developed and maintained a suite of mini projects, including a Weather App, Login Form,To-Do List, Book API, Recipe Finder, Portfolio and other recent project on Github. These projects enhanced my frontend skills and improved reporting efficiency, delivering a smooth user experience.[Github]

- **Marphat(BookSathi):** Currently developing an e-commerce platform that allows users to exchange books for a specified period, with terms and conditions applied, aligning with the client's evolving vision and requirements.

Engineered the full project architecture, delivering robust, scalable solutions that significantly enhanced client satisfaction.
